## RACK ENCLOSURES

### STANDARD RACK ENCLOSURE

This rack enclosure system combines furniture elegance with advanced technologies and modern elegance.

Incorporating an attractive cabinet casing and a sophisticated passive ventilation system this enclosure is designed with security and safety in mind. The oversized glass door provides maximum equipment visibility while adding to the overall design.

### STEEL RACK ENCLOSURE

Rugged and durable describes our steel rack enclosure, shown here without cladding. Available in a variety of sizes from 24" to 72" long. This system allows for customization and provides virtually endless racking configurations. For space conscious environments a reduced depth (10.25") option is available.

## WOODRACK ENCLOSURE CABINETS

The Evans Woodrack Cabinets are designed for form and function. The exterior is made with high pressure laminate and is available in one to three doors. Designed to fit your needs, this cabinet is available in various sizes 20", 30", 36", 60" and 72". Other options include 4 and 2 Point rackmounting kits and veneer cladding.

GREENGUARD, the most familiar product certification and a globally recognized leader in indoor air quality, has been certifying products since 2001. GREENGUARD is an independent third party certification program that certifies products for low non-toxic emissions. Our furniture is manufactured using recycled and low emitting materials that help our customers meet and exceed environmental standards in their projects. Evans products can be constructed in such a way that they support the LEED Certification of your facility.
