

# STRATEGY AIR™

## EXPERIENCE THE FREEDOM

Durability and design have come together in the new open concept Strategy Air™. Designed for 24/7 lifetime use, the Strategy Air™ incorporates the latest in operator ergonomics, cable management and technology integration, while offering a fully scalable and flexible solution.

Strategy Air™ is the first console to take advantage of control rooms that utilize remote server technology. The innovative cable management system allows the console and the operator to be free from IT infrastructure and unsightly cables. In addition to offering long-term durability, functionality and a modern look and feel, Strategy Air™ has been ergonomically designed to enhance the health and productivity of operators in control room environments.

# CREATIVE FREEDOM

Limited only by your imagination and creativity, the Strategy Air™ offers a wide variety of customizable options. From endless worksurface colors and patterns to customizable leg inserts, this console is designed to look good from the frame up.

## REMOVABLE PC HOLDER

The Strategy Air™ offers a removable PC holder for environments that require local PC access. Environments that have incorporated remote server technologies can remove the PC holder and enjoy the true open concept that the Strategy Air™ showcases.

## COMMUNICATION & COLLABORATION

The unrestricted workspace allows operators to interact freely, allowing for the open exchange of ideas and improved workflow between team members. The modular connectivity of the Strategy Air allows for greater layout flexibility, further contributing to an open work atmosphere.

*Strategy Air™ can be curved to include 22.5°, 30° and 45° corners. This flexibility is ideal for achieving proper sight lines*

## FREE FROM CABLE AND CORDS

Part of Strategy Air's beauty is not what you see; it's what you don't see. The simple open design hides cables and cords within the structure of the console. Hanging cables, tangled cords, and unappealing clutter are a thing of the past, leaving clean lines and clear workspaces. Selecting the enhanced cable management option allows for four individual cable raceways running the length of the console.
