

STRATEGY SX™

ULTIMATE CONSOLE SOLUTION

Strategy SX™ combines the latest in operator comfort and ergonomics with superior cable management and technology integration. Built on an aerospace-grade extruded frame, this console has been specifically designed for technology intensive, 24/7 environments.

From the generous leg room to the patented ergonomic nosing and adjustable monitor mounts, the Strategy SX™ is designed to help the operator perform at optimal efficiency. Almost endless configuration and finishing options make Strategy SX™ the most complete and adaptable console on the market.

Product Manufacturing

BUILT TO LAST, DESIGNED TO IMPRESS

The new heavy-duty extruded aluminum frame offers superior strength and durability. The re-engineered structure allows for more cavity room inside the console, making it the most spacious Strategy™ yet.

Fully customized end panels are a great way to exercise your creativity. Choose from glass, metal or laminate, then get creative with colors, logos, lights and more. The Strategy SX™ pushes the boundaries of what is possible.

UNLIMITED DESIGN CONFIGURATIONS

Place individual consoles, rows of operators, or clusters of collaborative groups in your control room with ease. The modular design of Strategy SX™ fits your needs today and allows you to adapt to future requirements.

CHOOSE YOUR SLAT SYSTEM

The Strategy SX™ incorporates the latest in slat support technology. Choose from the redesigned slatwall or the modern slatrail system. Both can handle a variety of mounted accessories including multiple monitors. The slatwall is available in a single, double or triple high configuration. The slatrail can be curved to fit within a curved console configuration.

EASY ACCESS CABLE MANAGEMENT

Effective cable management is essential in any mission critical environment. The Strategy SX™ utilizes wider and deeper cable raceways, allowing you to run more cable in an organized manner. Full front and rear access make adding or changing cabling quick and easy. This sophisticated integrated cable management system hides cables within the frame and ensures a clutter free workspace with a slick modern look.
